

BUYING GUIDE:

1. For a quote we need your details and address, without it we can not save our proposal.
2. From the features and prices of the catalog we you send, select the most suitable machine for you, then we can make a budget to your house, (each machine has small changes in the price of transport).
3. Stock estimates are valid only on the day that have occurred.
4. The waiting times are about 100 working days (it can be shorter if we have in stock).
5. The validity of the prices of a proforma is 30 days, we and our suppliers are in continuous technological evolution and this has an impact on the properties of the machine and its value.
6. The countdown to the expected date of delivery does not start until we have confirmation of 50% of the value of the machine.
